

Placer County Honey Festival Honey Bear Races Application

All who enter will be given an official “race kit” that includes a car assembly kit and a plastic honey bear. you may decorate any way you like, but during the entirety of each race, the honey bear must right UPRIGHT on TOP of the car and must remain intact until the finish line. The other requirement is that the maximum weight of the entry is **12 ounces** and all entries will be weighed prior to racing each round. No substitutions of the official “race kit” will be allowed. If you need additional supplies you may order from race organizers. Once you register, the kit will be sent to you. The deadline is September 10, but there are **ONLY 16** entries allowed in each category. All racers will be guaranteed at least 3 races. If your car needs repairs, you must complete them before your next scheduled race, so bring tools, etc. We also recommend to really show your “spirit” when decorating!!
